

All For Fun Week

July 25th-29th 8:30 a.m.-3:00 p.m.

S.T.E.M Camp

This unique camp will explore different avenues of science, engineering, and STEM problem solving. We will use science, technology, engineering, art and math to work together in a real world problem solving team. One exciting project using STEM is edible boats to float in fruit punch. We will end our week with a fun Friday afternoon celebration.

Let's Get Cooking With King

Why do kids love to cook you ask? So many reasons- It's science, the study of the transformation of matter. You heat an egg and it becomes solid. It's also art: you add this flavor to this flavor to this flavor--there are no rules, you decide--and you get this other thing, a flavor that did not exist before. That's the *power* of creation! There may even be a few food basket challenges along the way. We will end our week with a fun Friday afternoon celebration.
